STENCILS

STENCIL EXPRESS

The Marsh Stencil Express is an electronic stencil cutting system that is computer driven with state of the art software designed specifically to meet your customers varied stenciling requirements. The software program is designed to run directly from your existing PC and does not require a stand alone dedicated PC system. All that is required for the software is one of the following programs: Windows 95, 98, ME, 2000 or XP.

With the Marsh Stencil Express system you can cut .011 oilboard, polyethylene, sandblast, stencil mask, vinyl, magnetic and other materials.

Unlike other systems on the market, the easy to use software program will allow you to start cutting a variety of styles and sizes of stencils in a matter of minutes without the need of lengthy, specialized training.

System Includes: 24" cutter, stencil and decal software and manual, cables, 1 – 45 deg. blade, and table top mounting brackets and cradle. Optional stand is available.

Using Stencil Express makes standard and special applications quick and easy.
